

12th International Congress on Rock Mechanics, Beijing, China

***Harmonising Rock Engineering and the Environment***

*October 16 – 21, 2011*

**Call for Papers**

The New Zealand Geotechnical Society is inviting authors to submit abstracts for the 12<sup>th</sup> Congress of the ISRM to be held in Beijing, China.

Conference themes are:

- Site investigation and field observations
- Rock material and rock mass property testing (laboratory and in situ)
- Analysis techniques and design methods
- Modelling and numerical methods
- Information system, artificial intelligence and other advanced techniques
- Rock engineering in hazardous geo-environments
- Rock breakage and excavation techniques
- Underground storage of petroleum, gas, CO<sub>2</sub> and nuclear waste disposal

For more information on the Conference visit the website at: <http://www.isrm2011.com/>

**Abstracts**

Authors please submit a short abstract (about 300 words) with the following details: Title, authors and affiliations and the most appropriate theme from the list above. Email your abstract to: Amanda Blakey at [secretary@nzgs.org](mailto:secretary@nzgs.org) before 20<sup>th</sup> August 2010.

**Final Paper**

Completed papers are due on the 15<sup>th</sup> January 2011 and these will be reviewed. Final submission date to Congress is on 15<sup>th</sup> April 2011.

Instructions to authors are available at the following link:
