

SLOPE STABILITY 2011

18-21 September 2011 Vancouver, Canada

International Symposium on Rock Slope Stability in Open Pit Mining and Civil Engineering

Slope Stability 2011, the *International Symposium on Rock Slope Stability in Open Pit Mining and Civil Engineering*, will be held **September 18-21, 2011 in Vancouver, Canada.**

This specialty meeting will explore recent innovation and key developments in the design, analysis, excavation and management of rock slopes. Slope Stability 2011 will provide a forum for mine owners and operators, consultants, engineers, suppliers and researchers to exchange views on how to promote best practices in slope stability investigations, design, monitoring and management.

Key Dates

Aug. 1, 2010	Call for abstracts
Dec. 31, 2010	Deadline for on-line abstract submission
Jan. 31, 2011	Author notification of abstract acceptance
May 31, 2011	Deadline for submission of full papers

Vancouver is a key centre for the open pit mining industry, with numerous mining and consulting companies calling it home. It is also a vibrant, multi-cultural city with breathtaking sea to sky views of the Pacific and coastal mountains. We hope to welcome you to Vancouver and Slope Stability 2011 to discuss the challenges we are facing in our profession and the innovative solutions being developed in response to these challenges. For more information, contact us or visit our website.

Co-chairs: Erik Eberhardt (erik@eos.ubc.ca)
Doug Stead (dstead@sfu.ca)
